WORK EXPERIENCE

Hussle Technology

Feb. 2021 – May 2024

Full Stack Developer

Hybrid, Lehi UT

- Led the development of a live streaming platform, built in Angular, that contributed to 70% of SaaS content revenue by integrating Shopify and various CMS APIs, ensuring a seamless shopping experience.
- Demonstrated exceptional communication skills, fostering productive interactions with UI/UX designers, engineers, product management teams, and clients.
- Spearheaded the creation and deployment of a dynamic learning software with a custom CMS, improving educational content delivery and management.
- Maintained cloud-based MongoDB on AWS using kinesis firehouse and lambdas.
- Led a smaller developer team, acting as the primary liaison between the product, design, and development teams to ensure cohesive project progression and alignment with business objectives.
- Facilitated communication and collaboration across teams, translating requirements and feedback into actionable development tasks, and maintaining project momentum.
- Managed client requests, thoroughly documenting requirements and ensuring timely implementation, resulting in improved client satisfaction and project transparency.

Wander

Dec. 2020 – Feb. 2021

Full Stack Developer

Remote

- Contributed to the early-stage development of Wander, an outdoor mapping company, focusing on building interactive Web maps using map.js within the React framework
- Integrated geospatial data into the maps, enabling users to visualize and interact with outdoor landmarks, routes, and points of interest effectively

CERTIFICATIONS, SKILLS & INTERESTS
